A NEW ERA IN COMPUTING TECHNOLOGY

“ We see that principle (of sharing) coming through in the Free Software movement in the form of the GPL and other free software licenses which essentially allow people to take other people's software, remix that, stand on their shoulders, and reach for the stars. ”

Mark Shuttleworth

FREE SEMINAR

Orewa College

February 28th at 7pm

All Welcome

bookings: 426 8244

How to ditch Microsoft for good and save money too!

If you use and/or rely on a computer in your private or professional life, this seminar is a must.

“ Linux is here. Linux is a serious competitor. We will rise to this challenge. ”

Steve Ballmer
